

NIGEL GAMUCHIRAI CHAWANDA

Computer Science Engineering Graduate | Software Development • AI / Machine Learning • IT Support
Chegutu, Zimbabwe • +263 777 66 8204 • gamuchawanda@gmail.com • Class 2 Driver's Licence

PROFESSIONAL SUMMARY

First Class Computer Science Engineering graduate with hands-on experience in software development, artificial intelligence, database management, and IT support, gained through academic projects and a six-month industry internship. Proficient in Python, SQL, and modern development tools, with a solid foundation in networking, operating systems, and cybersecurity fundamentals. A fast learner and dependable team player seeking an entry-level ICT role where I can apply strong technical and problem-solving skills to deliver reliable, efficient solutions while growing within a dynamic organisation.

KEY SKILLS

Programming	Python, C++, Java
Software & Tools	Software development lifecycle, Git / GitHub version control, Microsoft Office (Excel, Word, PowerPoint)
Data & AI	SQL database design & management, machine learning, data analysis & model evaluation
Systems & Networks	Windows & Linux administration, networking fundamentals, ICT support & troubleshooting
Other	Basic cloud computing, cybersecurity fundamentals

EDUCATION

Bachelor of Technology in Computer Science Engineering 2022 – 2026

Jawaharlal Nehru Technological University — **First Class**

Advanced Level (A-Level) 2020 – 2021

Kwenda High School — 17 points: Mathematics, Physics, Chemistry & Mechanical Mathematics

Ordinary Level (O-Level) 2016 – 2019

Sandringham High School — 11 subjects including Mathematics and English

PROFESSIONAL EXPERIENCE

Artificial Intelligence & Machine Learning Intern Oct 2025 – Mar 2026

SmartInternz (APSCHE), Asia

- Completed a structured six-month internship focused on AI and machine learning, applying Python to solve practical, data-driven problems.
- Built, trained, and evaluated machine-learning models, performing data cleaning, analysis, and performance evaluation on real datasets.
- Worked through guided projects covering supervised learning, model evaluation metrics, and end-to-end AI application development.

KEY PROJECTS

WindPower AI

- Developed a Python-based system to estimate wind-turbine energy output from weather data, applying data analysis, feature preparation, and model evaluation to improve prediction accuracy.

CyberShield AI

- Built an AI-powered cybersecurity tool to detect and classify potential cyber threats, using machine-learning techniques to flag and categorise anomalous activity.

CERTIFICATIONS

- Microsoft Certified: Azure AI Fundamentals (AI-900)** — March 2024
- AI & Machine Learning Internship Completion Certificate** — SmartBridge / APSCHE

PERSONAL ATTRIBUTES

Strong communicator and team player • works well under pressure and minimum supervision • calm and methodical problem-solver • quick to learn and adapt • professional, reliable, and detail-oriented.

PERSONAL DETAILS

Date of Birth: 25 May 2003 **Nationality:** Zimbabwean **Languages:** English, Shona **Availability:** Immediate
